**TRUSTED TOUGH.**<sup>™</sup>

COAST's build quality has led to some amazing survival stories:

The flashlight that fell 9 stories down an elevator shaft.  
**And still worked.**

The headlamp that spent a night in a cement mixer.  
**And still worked.**

The flashlight that spent a year submerged in a swamp.  
**And still worked.**

# COAST®

QUALITY SINCE 1919

COAST Products is a 102-year-old, family-owned company that produces LED lights, knives and multi-tools for work, recreation and everyday use.

COAST produces innovative, technologically advanced products backed by a lifetime warranty that makes the user's life safer, easier, and more enjoyable.

COAST warrants its COAST knives, tools, and COAST LED lights to be free of defects in materials and workmanship for the life of the original purchaser. This warranty does not cover a select range of COAST products, normal wear and tear, nor damage resulting from misuse or neglect. Warranty does not cover batteries and charging accessories (or damage caused by either).

A handwritten signature in white ink, appearing to read "David C. Brands".

## COAST DUAL POWER TECHNOLOGIES

COAST is innovative with more than just beams and industrial design. We also put our collective heads together to create power sources and charging technologies that make all our lights even more useful and cost-effective. From price-conscious, yet class-leading alkaline batteries to the most advanced rechargeable systems, COAST leads the way in power.

### ALKALINE-DUAL POWER

Comes with COAST'S Extreme Performance Alkaline batteries and is compatible with COAST'S ZITHION-X™ Rechargeable battery.

### ZITHION-X™

ZITHION-X™  
Rechargeable  
Battery

### RECHARGEABLE-DUAL POWER

Comes with COAST'S ZITHION-X™ Rechargeable battery and can be used with COAST'S Extreme Performance Alkaline batteries.

### ZITHION-X™

ZITHION-X™  
Rechargeable  
Battery

### RECHARGEABLE

Comes with COAST'S embedded ZITHION™ Rechargeable battery and a USB Charging Cord.

### ZITHION™

### RECHARGEABLE/CONTINUOUS RUN

Comes with COAST'S embedded ZITHION™ Rechargeable battery and a USB charging cord. Can also use plug-in AC power as needed.

### ZITHION™

## CHARGING TECHNOLOGIES

### PRO-TEK CHARGING PORT

Charging made incredibly easy. Just slide open the PRO-TEK port on a PRO-TEK equipped COAST light to access the USB-based charging port. Plug-in to a local AC, DC, or USB power source, and re-charge your light right there. COAST ZITHION-X™ rechargeable batteries also come with a USB charging port and can be charged outside the light for added versatility and time savings.

Slides for charging port access.

AC, DC, USB

### PRO-FLEX CHARGING CAP

A clever charging system for certain COAST rechargeable pen lights. When the time comes to recharge, find a convenient AC, DC, or USB power source, slide the PRO-FLEX cap over the end of the light, and it's charging!

To recharge, simply re-cap the torch.

**HANDHELD TECH – OPTICS**

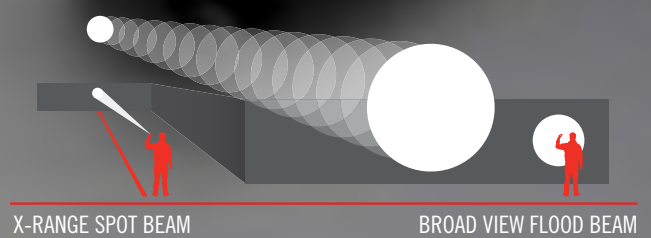

**PURE BEAM FOCUSING OPTIC  
ENHANCED FIELD OF VIEW**

Our largest, Ultra View Flood Beam and our Bulls-Eye Spot Beam with transition halo.

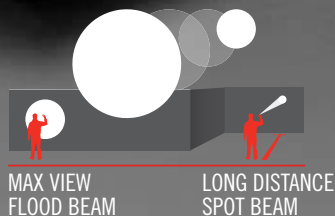

**LONG RANGE FOCUSING OPTIC  
ENHANCED DISTANCE**

Our longest, X-Range Spot Beam and our Broad View Flood Beam.

**UNIVERSAL FOCUSING OPTIC  
COMPACT SIZE**

A very broad, consistent flood beam and a long distance spot beam.

**INSPECTION BEAM OPTIC  
CLEAR, CONSISTENT, DEFINED**

Excellent for illuminating a crisply defined area at closer ranges.

**C.O.B. UTILITY BEAM  
EVERYDAY BRIGHT**

A bright, general-use beam created with C.O.B. (Chip On Board) technology.

**HANDHELD TECH – CONTROLS**

**SLIDE FOCUS**

Spot to flood light control at your fingertips.  
Shape your beam with the simple push or pull of your thumb.

- **PURE BEAM FOCUS**  
FLOOD & SPOT
- **LONG RANGE FOCUS**  
FLOOD & SPOT

**TWIST FOCUS**

Twist the head of the light to move between a flood and a spot beam.

- **PURE BEAM FOCUS**  
FLOOD & SPOT
- **UNIVERSAL FOCUS**  
FLOOD & SPOT

**BEAM LOCK**

Lock the beam anywhere you want it.  
Twist left to lock the beam in place.  
Twist back to the right to release.

**FRONT SWITCH**

Easy one-handed on/off activation.

**QUICK-CYCLE SWITCH**

Control your light power with the push of a button.

Depending on the model, COAST lights may have one of the following illumination sequences:

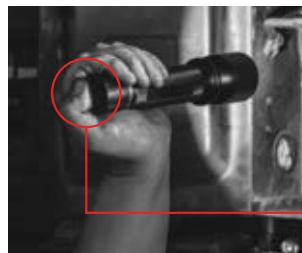

- High | Low
- High | Medium | Low
- High | Strobe | Low
- High | Strobe

**REAR SWITCH/TAIL CAP DESIGN**

Many of COAST's lights use a Quick-Cycle tail switch. A tail switch is a well-known feature in the tactical and professional markets. This allows the light to be held up-and-away from one's body while still providing light power control.

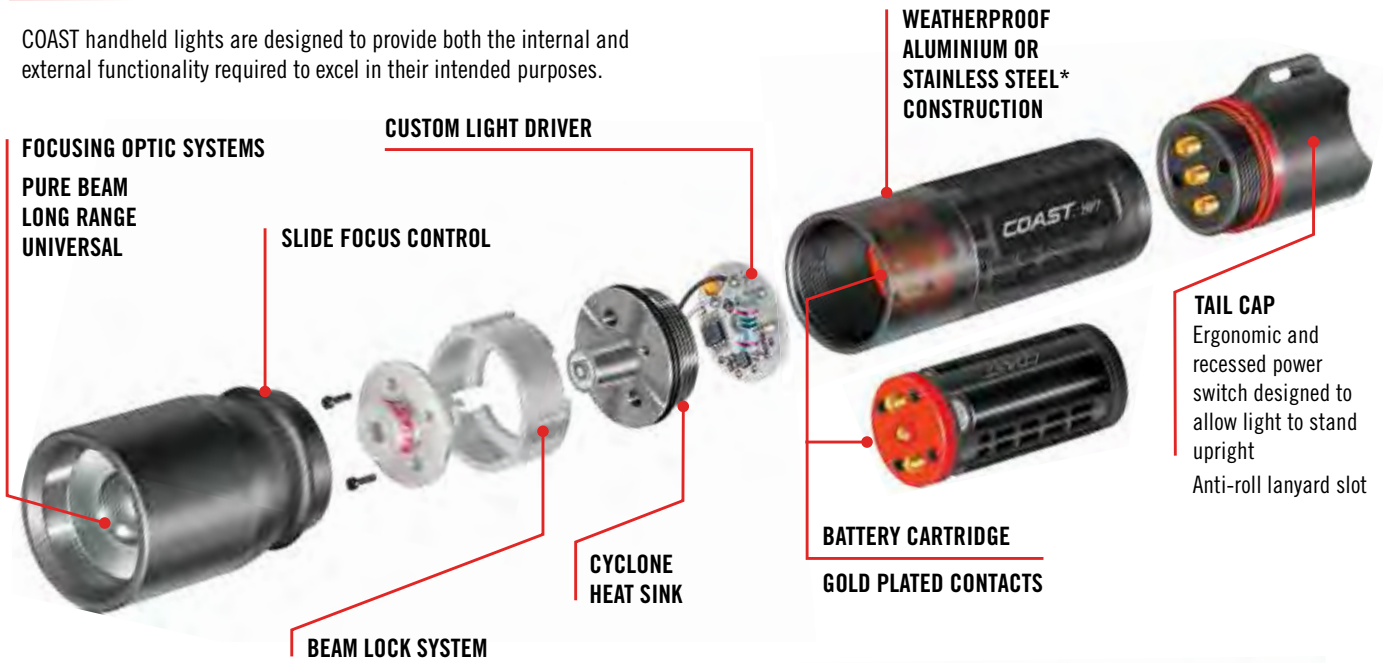

COAST's tail cap design also allows many of our lights to stand up straight for vertical lighting applications.

# HANDHELD TECH – BUILD & MATERIALS

## PURPOSE BUILT

COAST handheld lights are designed to provide both the internal and external functionality required to excel in their intended purposes.

## POLYSTEEL®

## TOUGH TECH

Take a tough-as-nails stainless steel core, cover it in grip-textured poly-nylon, add a focusing, Pure Beam Optic, and you have POLYSTEEL.

Storm Proof

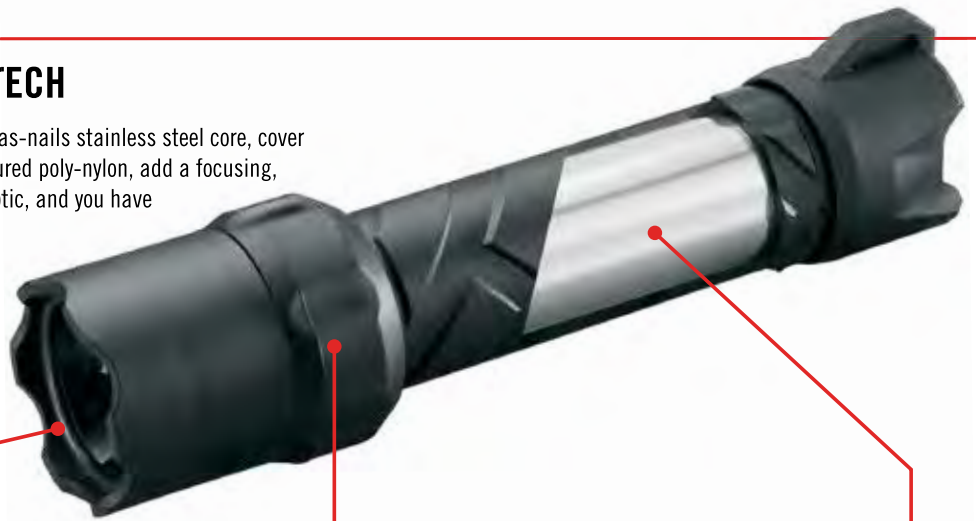

Dust Resistant

Crush Proof

Drop Proof

### PURE BEAM FOCUSING OPTIC

All POLYSTEEL lights include COAST's patented Pure Beam Focusing Optic systems.

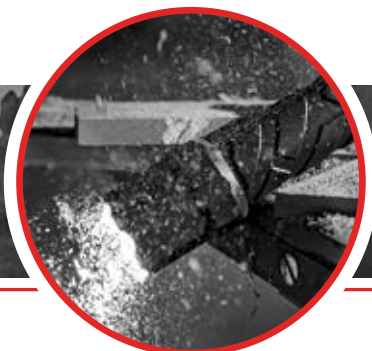

### TWIST FOCUS CONTROL

Focus the POLYSTEEL beam by simply twisting the head of the light.

### POLY-NYLON OVER STAINLESS STEEL CORE

A fibreglass-reinforced polymer covers a stainless steel core.

## DURABLE

COAST handheld torches are manufactured to withstand constant use. Metal construction\*, heavy duty O-rings, and custom battery cartridges are all built to provide longevity and durability.

Not all design features are present on all lights.  
\*Some COAST lights also use coating materials in their construction.

**ICON KEY**

**OPTICS**

**BEAM LOCK**

Set the beam to stay how you like it. COAST BEAM LOCK® technology makes our SLIDE FOCUS® system even more valuable, with the option to lock the beam in place on spot, flood, or anywhere in between. Twisting the head of the light to the left locks the beam in place, and twisting it back to the right releases the slide mechanism back into motion.

**BULLS-EYE SPOT BEAM**

Hit your target with power. Always on point, the Bulls-Eye Spot Beam fixes a bright “hot spot” on the object, surrounded by a soft halo of transitional light to increase the total field of view. From spotting animals in the dark to identifying objects, this beam cuts through darkness.

**C.O.B. OPTIC**

Get brilliant light tailored for specialised formats and use cases. COAST lights featuring Chip on Board (C.O.B.) technology cast a wide beam handy for up-close work— from a strip of LEDs built right onto the chassis, without a standard optic.

**DUAL-COLOUR WHITE & RED BEAM**

The right light for the moment. The Dual-Colour White & Red Beam combines an all-white Utility Beam for general use with a red, anti-glare beam that prevents “night blinding” while also offering a tool for emergency signalling.

**DUAL-COLOUR WHITE & UV BEAM**

See beneath the surface. The Dual-Colour White & UV Beam combines an all-white Utility Beam for general use with a UV light for detecting fluid leaks or checking security features on currency and identification cards.

**EMERGENCY**

Signal duress with flashing, bright-red light. If times get tough, COAST lights outfitted with Emergency mode help attract much-needed attention.

**HINGED BEAM**

Up, down, or straight ahead. All COAST headlamps feature a hinged, tilting head so that you can adjust the light’s direction and see right where you’re looking.

**HIGH MEDIUM LOW**

Control your light power with the push of a button. Cycle between full light, medium light and low light options.

**HIGH LOW**

Control your light power with the push of a button. Cycle between high power and low power options.

**INSPECTION BEAM OPTIC**

Never miss a detail. The Inspection Beam cuts clean, consistent light from edge to edge to evenly illuminate work spaces. Engineered for pen lights that fit in the pocket, this beam simplifies up-close work and brightens hard-to-reach objects.

**LIGHT CONTROL LEVER**

Adjust light intensity to meet your need. COAST headlamps featuring a Light Control Lever allow you to fine-tune light output with one hand by simply moving the lever positioned on the back of the headlamp.

**PURE-BEAM FOCUSING OPTIC**

Pack two powerful beams into one and seamlessly transition—with no halos or hot spots—between short and long-range viewing. COAST’s patented focusing technology adapts to your need. The Ultra View Flood beam delivers edge-to-edge clarity in a broad circle, and the BULLS-EYE™ Spot Beam sends a sharp ray of light at a distance with a transitional halo around the spot to increase the effective viewing area.

**REAR SWITCH TAIL CAP**

Design enables hands free vertical lighting.

**SINGLE MODE**

The same light every time. Keeping it simple with COAST single-mode lighting means you can rely on an even, bright white beam every time.

**SLIDE FOCUS**

One-handed beam control. COAST’s SLIDE FOCUS® system enables you to seamlessly transition between spot and flood beam with the push or pull of your finger. Responsive beam-shape control allows you to operate your light with a single hand and keep the other hand free.

**TURBO MODE**

The XP lights not only feature standard light modes but also COAST’s signature Turbo Mode for overpowered light in critical situations.

**TWIST FOCUS**

Dial in the shape of light you need for the situation. COAST’s TWIST FOCUS™ system makes it easy to move between spot and flood beams by simply rotating the head of the flashlight.

**UTILITY BEAM OPTIC**

Take it everywhere—the ultimate, all-around light for general use. COAST’s Utility Beam shines three individual, overlapping beams to create a broad, multi-bright field of light—with a concentrated, vivid center and diffuse, radiant edges.

**VARIABLE LIGHT CONTROL TECHNOLOGY**

Easily adjust headlamp light output. COAST Variable Light Control Technology provides three ways to precisely regulate beam intensity.

**WIDE ANGLE FLOOD BEAM OPTIC**

See the whole scene at once. The Wide Angle Flood Beam illuminates the broadest possible area with vivid, consistent light from edge to edge.

## CHARGING

### BATTERY CHARGES INSIDE LIGHT

COAST ZITHION™ non-ported rechargeable batteries are built to charge from within your COAST light using a COAST charging system.

### BUILT-IN USB-C PORT

Charge directly from AC, DC, and USB. Flashlights and headlamps with COAST PRO-TEK Charging include a direct-connect port for powering back up.

### BATTERY LIFE INDICATOR

With a battery-life indicator, you can always know when your battery needs to be recharged.

### CHARGING CAP

Power up your penlight by putting on its cap. The COAST Pro-Flex Charging Cap makes recharging as easy and intuitive as replacing the cap on a pen.

### CONTINUOUS AC/DC POWER

You can continuously run this work light using an AC/DC power cord.

### DUAL POWER

Options to stay ready. With COAST Dual Power technology, you have the choice to power your light with USB-rechargeable batteries or with standard alkaline batteries.

### DUAL POWER (LI-ION/CONTINUOUS)

You can power the work light by using the rechargeable battery or continuously run the light on an AC/DC power cord.

### ENERGY SAVING

Conserve battery life with precise light control. Make easy adjustments to match your light's intensity to the circumstance. COAST EAL multi-mode technology enables seamless transition from energy-saving low-light output to area-illuminating high output and anywhere in between.

### EXTERNAL DEVICE CHARGING

Power any USB-enabled device. Select COAST work lights feature a special external charging system that allows other devices to recharge directly from the work light's battery.

### OVERCHARGE/DISCHARGE PROTECTION CIRCUITS

Over charging and improperly discharging lithium batteries can cause a safety concern and hazardous risk to the user and it's surroundings. COAST batteries are built with overcharge/discharge protection, ensuring you and your battery are protected.

### PRO-TEK CHARGING

Charge directly from AC, DC, and USB. Flashlights and headlamps with COAST PRO-TEK Charging include a direct-connect port for powering back up.

### RECHARGEABLE DUAL POWER

Each COAST Rechargeable-Dual Power product comes with a ported ZITHION-X™ rechargeable battery or a non-ported ZITHION™ rechargeable battery and is compatible with either COAST Extreme Performance alkaline batteries or other brand-name battery types, depending on the product. This provides you the cost savings of using rechargeable and the flexibility of reverting to alkaline.

## DURABILITY

### CRUSH PROOF

The Crush Proof feature combines a super-tough stainless steel core with a grip-textured poly-nylon exterior to build unimaginable strength into highly functional lights.

### DROP PROOF

Drop Proof for use in rugged, high-impact environments.

### DUST RESISTANT

Take on any dirty work environment with this dust resistant light.

### STORM PROOF

Ride out storms with light. The crushproof, weatherproof area light shines bright or sends a signal when the wind and rain cause outages.

### Weatherproof

Keep the light on no matter the weather. With IP54 resistance to splashes, sprays, and downpours.

### WATER RESISTANCE

Don't worry about the weather. COAST lights that have passed the IP54-level resistance tests are splash-resistant and built with durable materials that stand up to nature.

### WHAT IS IP54 Weatherproof?

A product with an IP54 rating is protected against dust ingress sufficient to prevent the product from operating normally but it's not dust tight. The product is fully protected against solid objects and splashing of water from any angle.

**ICON KEY**

**FEATURES**

**180-DEGREE HANDLE ROTATION**

Put the handle right where you need it. An adaptive handle on the work light enables you to rotate the handle up to 180 degrees for optimal placement.

**180-DEGREE ROTATION (AREA LIGHT)**

Put the beam right where you need it. An adaptive head on the work light enables you to rotate the beam up to 180 degrees for optimal placement.

**360-DEGREE HANDLE ROTATION**

Put the handle right where you need it. An adaptive handle on the work light enables you to rotate the handle up to 360 degrees for optimal placement.

**BASE HANGING LOOP**

Hang the light for perfect illumination—with a base hanging loop that can be attached for perfect positioning.

**HAT CLIP**

Store it away or shine it forward. The Two-Way Clip enables flexibility to stash the light in your pocket or clip it to the brim of your hat.

**HARDHAT COMPATIBLE**

Rugged enough for the outside of the hardhat. COAST headlamps with Hardhat Compatible design include clips for attaching the light to the hat.

**MAGNETIC BASE**

Attach the light to magnetic surfaces. Lights with a Magnetic Base have magnets located on their base that allow the light to be attached to magnetic surfaces for easy storage or hands-free use.

**MAGNETIC TAIL CAP**

Attach the light to magnetic surfaces. COAST lights with a Magnetised Tail Cap have an integrated magnet that enable you to affix the light to magnetic surfaces for easy storage or hands-free use.

**REFLECTIVE STRAP**

Stay visible in the dark. Some COAST headlamps feature a Reflective Strap to increase safety and ensure user visibility in low light.

Dust Resistant

Crush Proof

Drop Proof

# POLYSTEEL

## TOUGH TECH

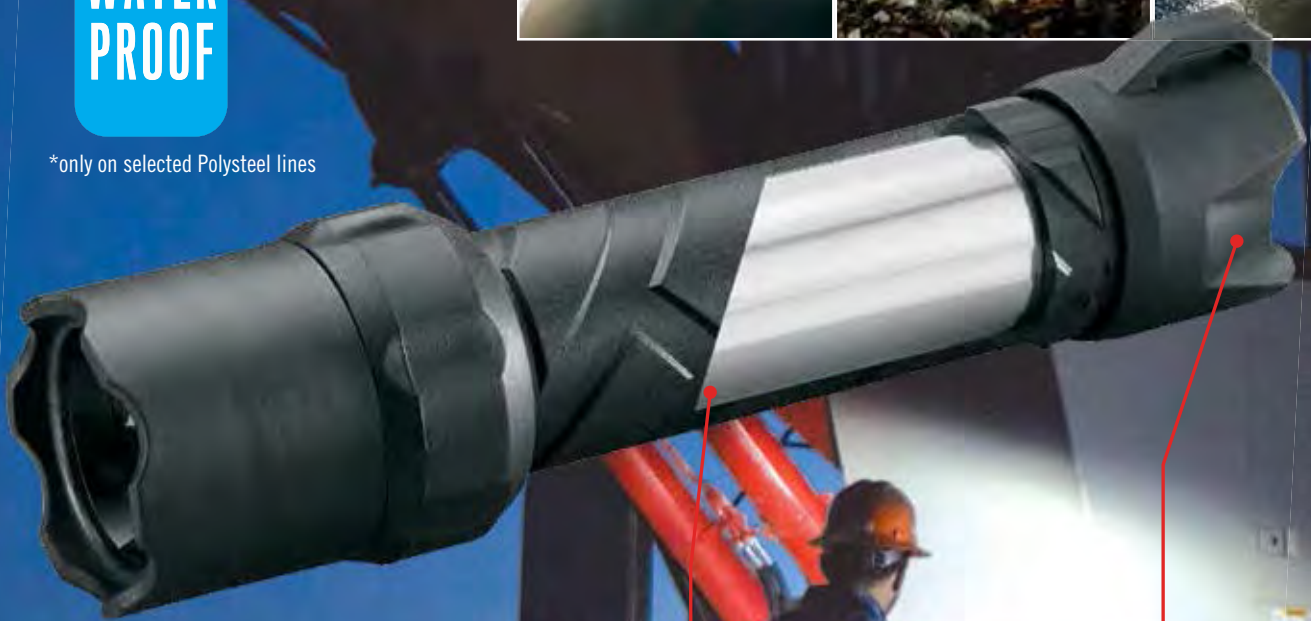

Take a tough-as-nails stainless steel core, cover it in grip-textured Poly-Nylon, add a focusing Pure Beam Optic, and then top it off with COAST's exceptional warranty and you have POLYSTEEL.

Most POLYSTEEL torches have passed the IPX8-level waterproof test while under 3 meters of water for 6 hours. POLYSTEEL torches have also passed the ANSI FL1 drop test from up to 3 meters in height (depending on model). COAST has also done some real-world "tough testing", ultimately crushing a POLYSTEEL torch under the track of a massive logging loader. The result? The torch was still on, doing its job.

## REAL-WORLD TOUGH TESTS

\*only on selected Polysteel lines

### POLY-NYLON OVER STAINLESS STEEL CORE

POLYSTEEL perfectly describes how these torches are constructed. A fiberglass-reinforced polymer covers a stainless steel core to create a torch capable of withstanding serious, professional level use. (NOTE: cutaway shown; poly covers entire handle area).

### PURE BEAM FOCUSING OPTIC

Tough doesn't mean you have to skimp on features. All POLYSTEEL torches include COAST's patented Pure Beam Focusing Optic system for outstanding beam shape at all ranges.

**HIGH****MEDIUM****LOW**

### 3-LEVEL REAR SWITCH

The rear power switch controls high / medium / low light settings to provide just the right beam intensity for the application.

**TWIST FOCUS**

### TWIST FOCUS CONTROL

The same focusing system found on other high-end COAST torches allow the user to focus the POLYSTEEL beam by simply twisting the head of the torch.

Lanyard ring

Medium | High | Low  
Twist Focus

Length: 21.4cm | 8.4"  
Weight: 356g | 12.5oz

The storm proof, drop-proof, and dust proof PS700R C.O.B. features a magnetic tail cap for easy positioning and a twist-focusing main optic supported by two ultra-bright, handle-mounted C.O.B.s with solid flashing modes in both white and red. It also makes it easy to affix the light to metal surfaces for hands-free, directional lighting from the twist-focusing flood-to-spot main beam. With seven unique light modes - including red and red flashing from C.O.B.s on the handle - the light can become an emergency signal attached to a car or other metallic surfaces. Whether on the job, around the home, or out on the road, this flashlight is the always-ready solution.

**NEW!**

# COAPS100 (809482)

110 Lumens | 42m Beam

High | Low

Length: 15cm | 5.9"  
Weight: 53g | 1.8oz

The PS100 is designed for anyone who needs a small, very powerful, pocket-sized light that can withstand any condition and do any lighting job you need to be done. It is fully tested to be dust proof, crushproof, drop-proof, and storm proof. The very slim PS100 fits nicely in a shirt pocket, safety vest, or pants pocket.

ANSI FL1 (Aik)	High	Low
Lumens	110	48

# ALKALINE HANDHELDS

# COAHP7 (805057)

650 Lumens | 200m Beam | IPX4

High | Medium | Low  
Slide Focus + Beam Lock

Length: 14.2cm | 5.6"  
Weight: 198g | 7.0oz

Lanyard ring

A perfect mix of size, form, and performance, the HP7 Flashlight is rightfully one of our most popular handheld lights. It combines our Pure Beam Focusing System with Slide Focus with a high, medium, and low output modes to illuminate with either a super wide flood beam or spot beam with transition halo at varying distances and brightness all controllable with one hand. Its anti-roll tail cap allows you to set it on uneven surfaces without rolling off and it even allows you to stand the light upon its cap for vertical lighting situations. The HP7 Flashlight is impact resistant, weather resistant and its LED is virtually unbreakable.

ANSI FL1 (Aik)	High	Medium	Low
Lumens	650	330	90
Beam Distance	200m	135m	75m

**HEADLAMP TECH – OPTICS, CONTROLS & FUNCTIONALITY**

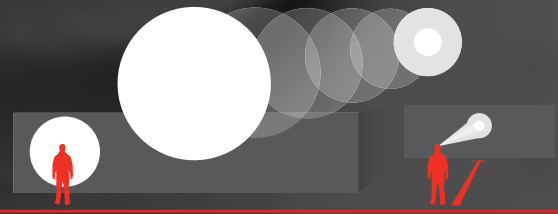

**PURE BEAM FOCUSING OPTIC**

**ENHANCED FIELD OF VIEW**

Our largest, Ultra View Flood Beam and our Bulls-Eye Spot Beam with transition halo. The Bulls-Eye Spot provides good viewing up to 214 metres and the Ultra View Flood Beam provides a consistent circle of light up to 3.5 metres in diameter at a distance of 1.8 metres.

Available with secondary red utility beam ● + RED

**ULTRA VIEW FLOOD BEAM**

3.5m across at 1.8m  
Ultra View Flood also available as stand-alone optic.

**BULLS-EYE SPOT BEAM**

Up to 214m  
Bulls-Eye Spot also available as stand-alone optic.

**BEAM SHAPING**

The Twist Focus Ring makes it easy to go from Ultra View Flood Beam to Bulls-Eye Spot.

**EASY ON/OFF**

COAST headlamps have several different power switch designs, but all are easy to use.

**REFLECTIVE SAFETY STRAP**

Certain COAST head torches include a reflective safety strap for additional user visibility in low light.

**HINGED BEAM ADJUSTMENT**

ALL COAST head torches include a hinged, tilting head to let you adjust direction of the light beam.

**HARDHAT COMPATIBILITY**

Certain COAST head torches include clips for hardhat compatibility.

Continuous Run Option

Work anywhere, always in the light - using the WLR1 rechargeable portable work light featuring a folding stand, twist-focusing optic, and three output modes for lighting versatility. Held in the hand or set-up on virtually any surface, this dynamic light is equipped with a USB-out port to double as an on-the-go power band for personal devices at the worksite. The WLR1 includes multiple output settings and a focusing optic that can vary the size of the beam. It's compact, rugged, and designed with an adjustable carry-handle stand and includes USB-out function. The powerful, compact floodlight packs a punch at 1150 lumens and the beam can rotate 180-degrees. The work light has an IP54 rating making the light weatherproof and dust proof.

# STORM PROOF EMERGENCY AREA LIGHTS (EAL)

**EAL TECHNOLOGY — MODES & DURABILITY**

LIGHT MODES

**HIGH**  
The brightest light across the broadest area.

**MEDIUM**  
A balance of light intensity and battery life.

**ENERGY SAVING**  
Longest battery life.

**SOLID RED**  
For preserving night vision and reducing glare.

**FLASHING RED**  
A signal light or emergency beacon.

COAST's EAL multi-mode technology allows the user to quickly adjust from energy conserving low light output to area-illuminating high output to anywhere in between. For emergency or night vision purposes switch to solid red mode or flashing red.

**SMART SWITCH**  
Cycle through to optimal light mode.  
**5-MODE**

**DURABLE CONSTRUCTION**  
Water resistant polycarbonate body

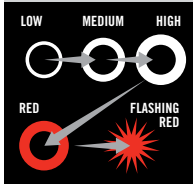

**STORM PROOF**  
High-quality materials and durable construction give COAST lanterns excellent weather resistance, making them great for use in emergency situations where there is inclement weather: rain, snow or wind.
